## **IDXPro MLS Search Service Covers Over 300 MLS Boards – Now Including Eight New REALTOR® Associations**

---

**Eight additional U.S. Realtor association boards have authorized IDXPro™ MLS-IDX searches to be used on members' real estate web sites. Agents and brokers can now see if their MLS is among the growing list of 300+ boards nationwide that display MLS listings on all websites with IDXPro.**

OAKLAND, CA, July 10, 2007—iHOUSE Web Solutions, a leader in website design, hosting, and marketing services for real estate professionals, now offers eight additional MLS-IDX feeds. With over 300 MLS's serviced, IDXPro offers a far larger coverage area than any other provider.

The IDXPro MLS search solution is available for all websites, not only iHOUSE™ websites. With IDXPro, clients can search through the entire MLS without ever leaving a real estate agent's web site. IDXPro also includes an interactive Google map, which maps property listings to specific geographic searches, so clients can easily view property locations.
